## Nitro and Cold Brew on Draft — SIMPLIFIED

Offering a complete draft experience no longer requires a full bar or high-maintenance, gas reliant kegerator systems. Introducing our two-in-one Cold Brew on draft dispensing unit— the NitroTap™ by Segafredo Zanetti®.

The simpler solution for serving Nitro and specialty cold brew drinks on tap.

### SERVICE WITH NITROTAP™ IS SIMPLE

- Dispenses Cold Brew AND Nitro
- Café-quality draft cold brew experience in a compact, countertop design
- Easy installation, simply plug-in, connect the bag and enjoy
- No nitrogen gas service needed
- No waterline connections
- Unique Quick Connect Bag-in-Box
- Internal refrigeration for optimum freshness
- Supports any level of service from low volume self-serve pantries to high volume coffee bars
